Title: DISHWASHER WITH COMMINTION DEVICE

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANT" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 42 44 365 discloses that dish washer has a wash chamber and an electrically-driven pump for conveying water from a tank to arms with water jets which rotate over the crockery to be cleaned. A control device adjusts the pressure of the water jets and the washing time inversely to each other and according to the weight of the crockery. Another control device controls the induction motor for the pump. The first control device uses a pair of ganged coaxial potentiometers, whose settings are used as input to the motor inverter. A microcomputer links the inverter with sensors for water level and door open/closed status.

DE 44 24 257 discloses that a centrifugal high-power pump with a single-phase sync. motor drive comprising a single-phase sync. motor, a free-wheel coupling and a centrifugal pump is designed for operating with powers in the region of up to considerably over 100 W, with a low-noise, material-conserving start-up of the pump without demagnetisation phenomena of the rotor permanent magnets, and thus the sync. motor is fitted out with a box-shaped stator in which the poles are arranged radially, with an arbitrary stagger or offset to the radial line, and the coils are arranged directly at the air-gap.

Attorney Docket No. 2003P01305WOUS

DE 296 13 432 discloses a dishwasher having a washing chamber 2 and a circulating pump 9 that cooperates with a circulating pump 12 and a discharge pump 23.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANT" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicant. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

Russell W. Warnock
